

CSE 111 Project Phase 1

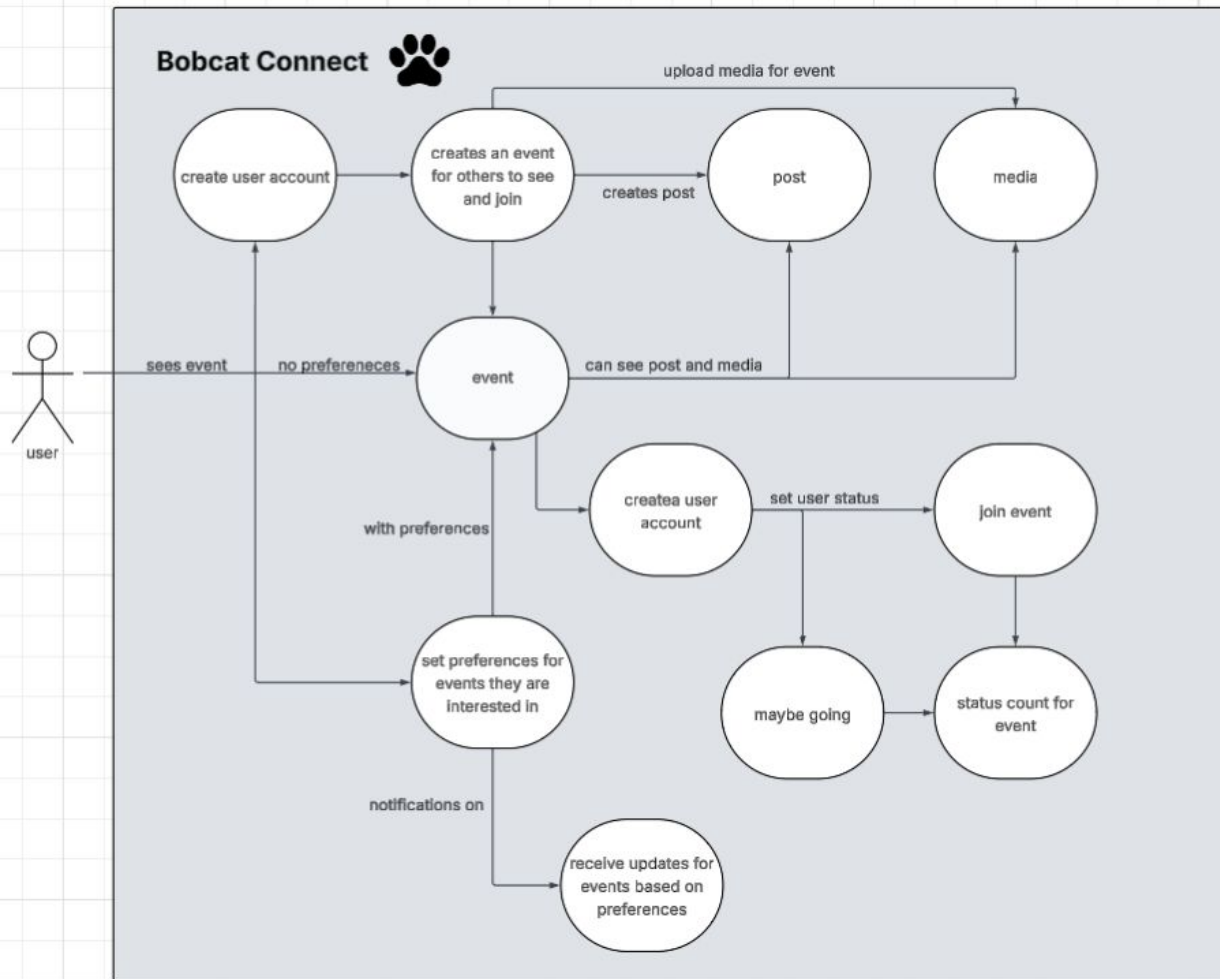

Jose Lopez Hernandez and Emanuel Marin

Bobcat Connect: Basic Overview

- A local event finder app
- The goal is for students using the app to be able to connect on campus with others who share the same interests or hobbies.

Use Case Diagram

Use cases: Host

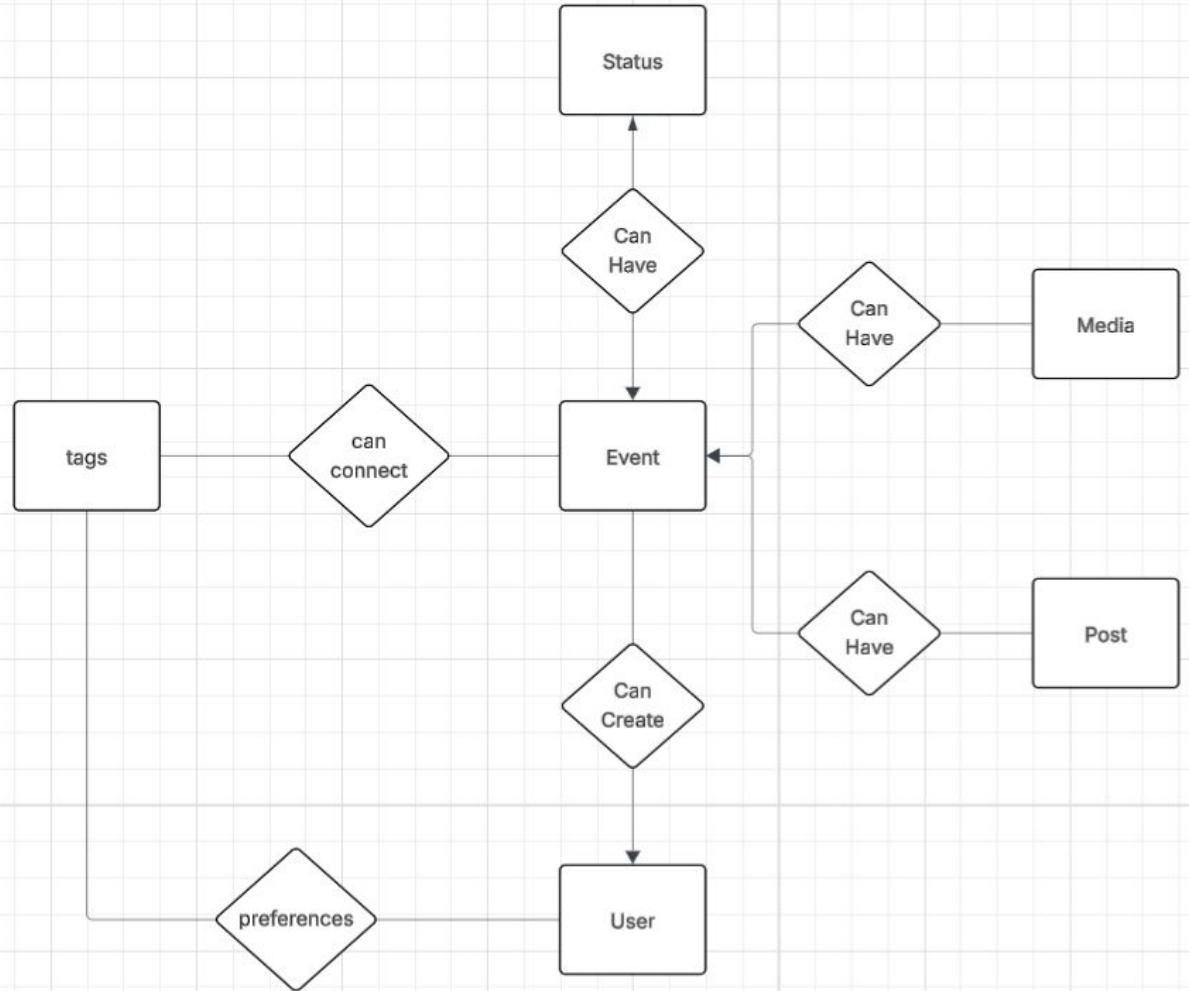

- As a host I want to create my own event and have others find my event and join me
- As a host I want to upload media and post updates on my event

Use Cases: user

- As a user I want to search for events, find the ones im interested in joining and set my status
- As a user I want save my preferences in order to filter the events i'm interested and be notified when those events are available
